BUILDING APPROVALS

SOUTH AUSTRALIA

NOVEMBER 1962

SCOPE This bulletin shows the number and value of "New Dwellings", "Other New Buildings", and "Additions and Alterations", approved in South Australia from October 1960 to November 1962 and gives details of the type of dwellings approved in the Adelaide metropolitan area during the same period.

The statistics relate only to buildings as distinct from the construction of roads, bridges, railways, earth works, water storage, etc., and have been compiled from (a) particulars listed on returns from local government authorities of permits issued to private persons and organizations for building in areas subject to building control, (b) particulars, furnished on the same returns, of building known to be projected or to have been started in areas beyond such building control but within the general jurisdiction of such authorities, and (c) details of contracts let or expenditure authorized by governmental and semi-governmental authorities shown on returns furnished by these authorities. See also Note (e), Table 5.

DEFINITIONS VALUE: The values shown represent the estimated cost when completed (excluding cost of land) of new buildings and of additions and alterations to existing buildings.

NEW BUILDINGS: Additions of £5,000 and over to existing buildings (other than houses) are regarded as "new" buildings and are included in the figures shown in Table 2.

PRIVATE and GOVERNMENT: Building is classified as "Private" or "Government" according to ownership, e.g. the majority of homes built by Government housing authorities are classified as "Government" even though some are intended to be sold on completion.

COMMENT For purposes of comparison it should be borne in mind that the volume of building approvals is affected from month to month by the incidence of large projects such as blocks of flats, hospitals, multi-storey office buildings, etc., and also by the administrative arrangements of local government and semi-governmental authorities.

During the three months ended November 1962 the number of dwellings approved for private owners totalled 1,957, a decrease of 128 on the figure of 2,085 for the previous three months but 203 more than the 1,754 approved during the three months ended November 1961; value of other new buildings approved (Private and Government combined) was £7,532,000, which was £1,390,000 more than for the previous three months and £1,416,000 more than for the corresponding three months ended November 1961; value of all building approved was £19,590,000, an increase of £4,249,000 on the figure for the previous three months and £3,827,000 more than for the three months ended November 1961.

(a) Includes "Home Units". (b) According to material of outer walls. (c) Includes also Brick Veneer, Concrete, and Composite.

(d) Mainly weatherboard. (e) Prior to July 1961 the information shown in this table was compiled solely from returns from Local Government authorities and included permits granted for the construction of houses etc. for Governmental Housing authorities. From July 1961 compilation has been as indicated in paragraph 1 on page 1 of this bulletin.
